# Make This Pop-Up Temple!

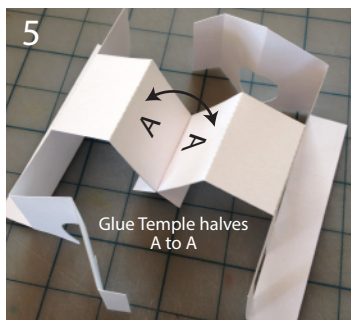

Print out all three sheets on to stiff paper such as index paper or 80# cover, available from paper or office supply stores.
1   Loosely cut out the pieces from Sheets A and B.

2   Then carefully cut out all pieces on the solid lines and score all the broken lines.
    TIP: With scissors always cut into sharp corners NOT around them, this makes cutting much easier.

3   Begin assembly by folding the two Temple halves as shown.
4   Repeat for the two Roof halves.

5   Glue both Temple halves together, A to A (see below).

6   Glue both end Tabs B & C **INSIDE** the Temple walls.

7   Fold in the Roof Tabs E & F and glue down as shown.

8   Glue one Roof side to the top of the Temple half with door cutouts. Line up the edges of both pieces (Pic 9).

9   Add a small amount of glue to the Roof ridge line and glue both roof halves together (Pic 10).

10 Add a small amount of glue to other Temple half (Pic 10) and glue down the other Roof half (Pic 11).

11 The Temple is now ready to glue to the baseboard.

12 Glue down Temple Tab F to the baseboard (Pic 12).

13 Fold Temple forward and apply glue to Tab G and glue to the baseboard where marked (Pic 13). Fold Tab H back over Temple wall and apply glue to it (Pic 13).

14 Fold over back cover and press down where Tab H is.

Congratulations! Your Temple is finished!
